

# DokuWiki

DokuWiki is a simple to use and highly versatile Open Source **wiki** software that doesn't require a database. It is loved by users for its clean and readable **syntax**. The ease of maintenance, backup and integration makes it an administrator's favorite. Built in **access controls** and **authentication connectors** make DokuWiki especially useful in the enterprise context and the large number of **plugins** contributed by its vibrant community allow for a broad range of use cases beyond a traditional wiki.

Read the **DokuWiki Manual** to unleash the full power of DokuWiki.
